# ABOUT US

## INTRODUCTION

Welcome to Globe Engineering Ltd, where we redefine excellence in mechanical, electrical, and plumbing (MEP) engineering. Our name stands for innovation, quality, and unmatched customer satisfaction. Beyond delivering top-tier MEP solutions, our team is driven by a passion for excellence, always striving to exceed expectations.

We are committed to quality in every phase, from design to installation, ensuring precision and seamless integration. Our attention to detail guarantees superior results and long-lasting performance.

Innovation is at the heart of our work. By exploring new technologies, materials, and methods, we stay ahead of industry trends, maintaining our leadership in MEP engineering.

Customer satisfaction is our priority. We tailor our solutions to meet each client's unique needs, building long-term relationships based on trust and exceptional service.

At Globe Engineering Ltd, we don't just build systems—we build a legacy of excellence, innovation, and reliability, with strict adherence to safety standards and quality benchmarks.

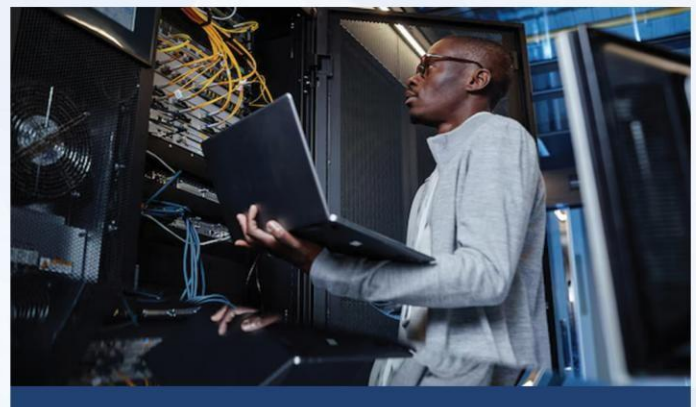

## BRIEF HISTORY

Since 2004, Globe Engineering Ltd. has grown from a small team into a leader in MEP engineering. With expertise in electrical, mechanical, wet, fire services, and specialized solutions, we are driven by innovation and excellence.

Initially founded to meet demands for repairs, software installations, and network setups, we expanded to deliver comprehensive engineering solutions. In 2008, our work with Ghana's National Identification Authority exposed critical technological challenges, inspiring us to innovate further. This led to the official registration of Globe ICT Solutions Ltd. in 2013.

Today, Globe Engineering remains committed to transforming industries and communities with cutting-edge solutions. Our journey is one of passion, growth, and impact—redefining possibilities, one project at a time.

# MISSION/VALUES

## MISSION STATEMENT

At Globe Engineering Ltd., we strive to be the leading MEP fit-out contractor, delivering top-quality engineering services and innovative solutions that ensure customer satisfaction. Our commitment to technical excellence, safety, and integrity sets us apart.

We uphold values like integrity and loyalty with genuine dedication by:

- Continuously enhancing service quality.
- Exceeding client expectations with reliable solutions.
- Maintaining the highest ethical standards
- Creating a safe, growth-driven workplace for our team.

With a steadfast focus on excellence and trust, we are committed to shaping the future of MEP engineering through innovation and professionalism.

## VALUES

### Excellence

We uphold the highest standards of safety and quality, ensuring every detail matters in our work.

### Integrity

We honor our commitments with transparency and honesty, building trust through our actions.

### Collaboration

We achieve success together by fostering mutual respect and working towards shared goals.

### Innovation

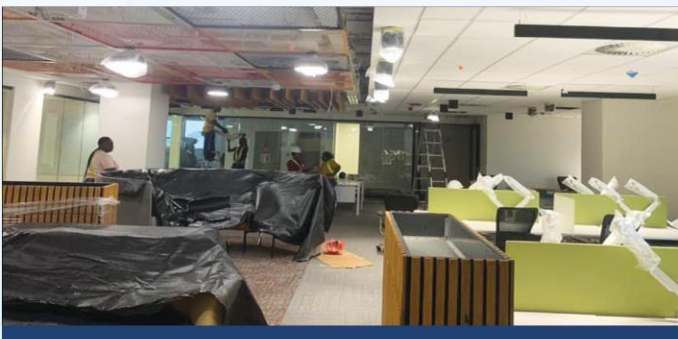

We embrace forward-thinking solutions, challenging ourselves to overcome complex challenges creatively.

### Positivity

We approach every situation with optimism, recognizing strengths in others and maintaining a resilient mindset.

### Customer Commitment

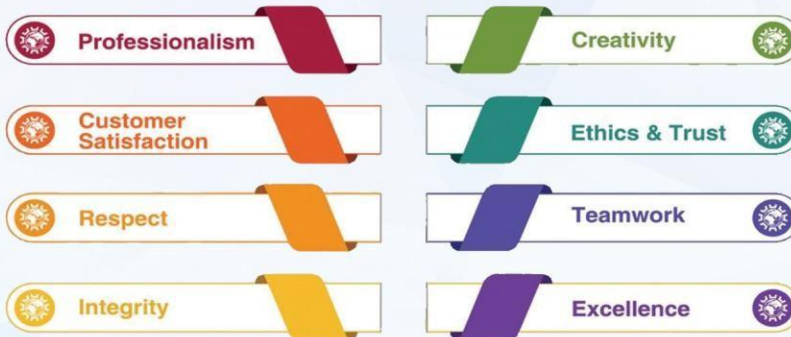

We anticipate and fulfill customer needs proactively, delivering exceptional service beyond expectations.

# STRATEGIC OBJECTIVES

## STRATEGIC OBJECTIVES

- Sustain the growth of our core ICT and MEP engineering services to establish our leadership in the Ghanaian market.
- Harness and enhance our local engineering skills to become the leading provider of MEP services in Ghana, focusing on safety, environmental sustainability, project management, and quality assurance.
- Diversify our service offerings to cater to regional markets, providing a comprehensive suite of ICT and MEP engineering solutions.
- Invest in the professional development of our employees, fostering a team that is recognized for its expertise and commitment within the industry.
- Deliver innovative ICT and MEP engineering services that contribute to the accelerated development of Ghana, addressing the country's unique challenges.
- Integrate local insights and experiences into our engineering practices to ensure project success and mitigate potential risks.
- Ensure that our workforce consistently provides competent, high-quality services with unwavering dedication to client satisfaction.
- Strive to rank among the leading ICT and MEP engineering firms in Ghana, benchmarking our standards against the best in the global market.
- Maintain a flexible and responsive management structure that optimizes client investment outcomes and adapts nimbly to evolving client requirements.

# WHY CHOOSE US

## OUR UNIQUENESS

At Globe Engineering Ltd, we deliver unparalleled engineering services and expertise, ensuring cost-effective and successful projects for both organizations and individuals. Our team of qualified professionals employs cutting-edge design and performance tools, guaranteeing world-class service and exceptional results.

## WHY CHOOSE GLOBE ENGINEERING LTD.

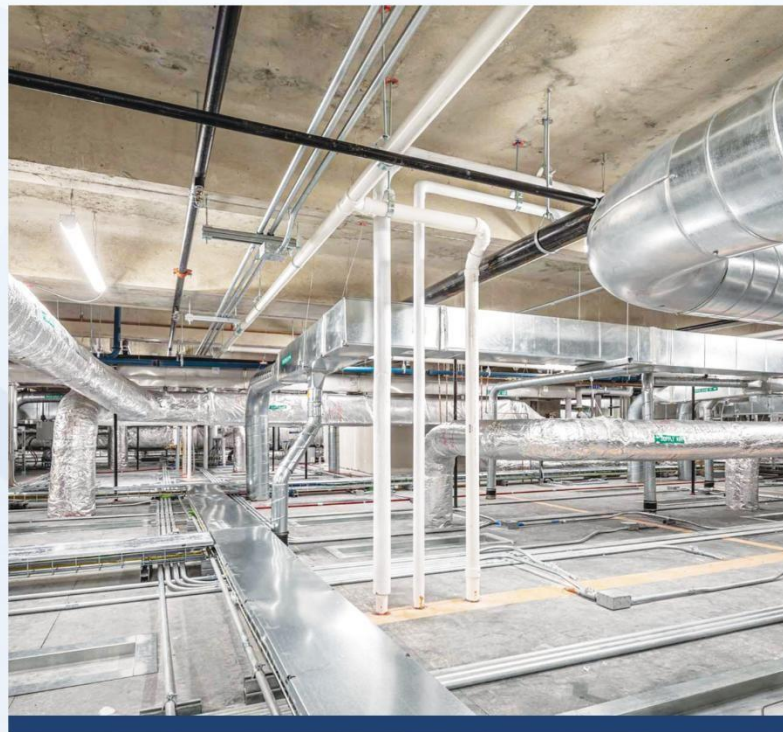

# OUR EXPERTISE

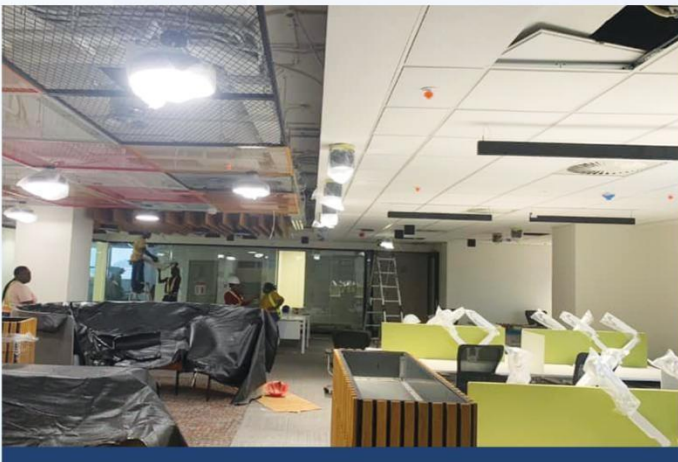

## MECHANICAL ENGINEERING

### Our Mechanical Engineering services include:

- Heating, Ventilation and Air-conditioning
- Sprinkler Installations
- Lifts and Escalators
- Fire protection systems (computer rooms, archives, etc.)
- Compressed air installations
- Boilers & Ancillary Equipment
- Cold and Freezer Rooms Refrigeration
- Smoke control and fire detection systems
- Swimming pool filtration and heating installations
- Medical gas installations
- Dust extract plants
- Laundry Systems
- Laboratory ventilation & air conditioning
- Kitchen Equipment Systems and Extraction

- Pneumatic Mailing Systems
- Reverse Osmosis Systems
- Autoclaves
- Mortuary Tables
- Mining Air conditioning
- Hydro bath Systems
- Irrigation systems designs
- Borehole water systems design
- Rainwater harvesting systems design

## ELECTRICAL ENGINEERING

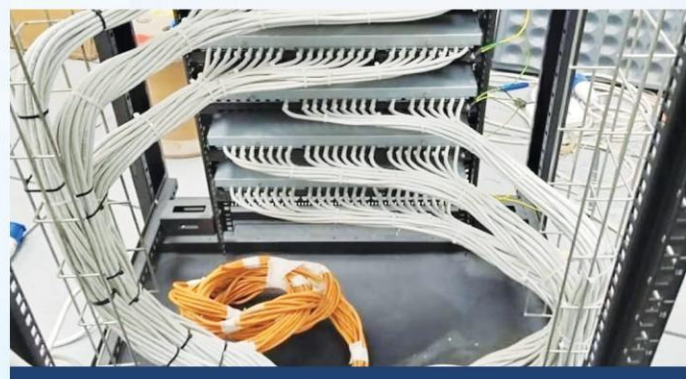

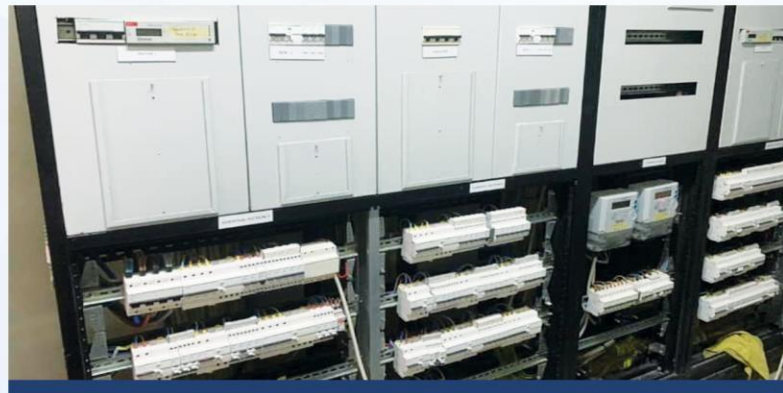

### Our High Voltage Electrical services include:

- General Residential and commercial electrical planning, design and implementation.
- Full electrical power and lighting reticulation
- Power Factor Correction
- UPS systems
- Consumer Substations
- Underground and Overhead Electrical Distribution Services
- Street Lighting
- Emergency Standby Generator Plants

### Our Low Voltage Electrical Services includes:

(Protection)

- Firefighting (Sprinkler system)
- Fire Alarm System
- Lightning Protection
- Earthing Installations
- Factory inspection for Safety and Adherence to Design Parameters

### Electronic Security System include:

- Access Control Systems planning, design and implementation
- Surveillance System (CCTV) planning, design and implementation
- Turnstiles (Swing Barrier)
- Smart Boom Barrier
- Manual and Automatic Bollards Installations
- Intrusion Detection and Prevention Systems Design and implementation

### Cyber Security Services include:

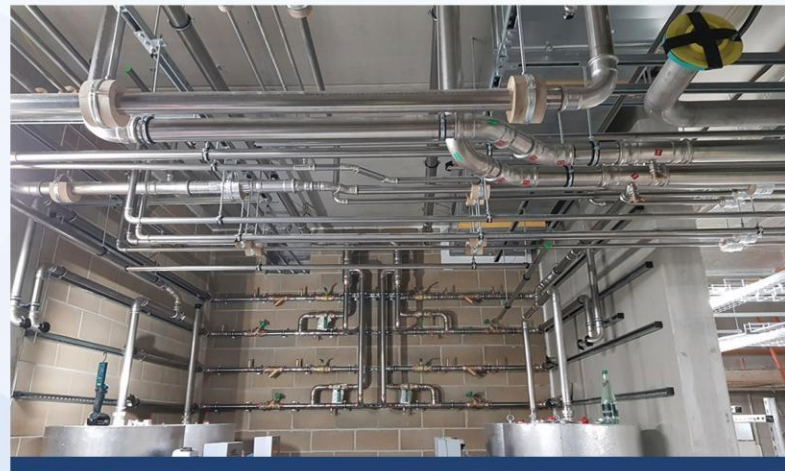

- Planning, design and implementation of Firewalls (Cisco, Juniper, Fortinet and Fortigate etc)
- Planning, Design and implementation of the following ICT Services:
- Data and Voice System, LAN, WAN, CAN, Wireless, VPN, MPL

## PLUMBING SERVICES

- Structured Cabling: UTP, FTP, SFTP, Coaxial, Fibre Optics
- Unified Communications: IP PABX, PBX, VOIP, SIP, MGCP, VoIP, Gateway, Gatekeepers
- Integrated Network Design: BMS, PLC, SCADA, Automation and IOT etc.
- Nurse Call System
- Audio/Visuals (P.A systems etc)
- IT Project Management
- Server Installation and Infrastructure Deployment: Active Directory, Mail Server, Web Server, Network Attached Storage, Application Server, etc.
- IT Devices Repairs and Services
- Disaster Recovery and Backups
- Archiving and Document Digitization.
- Accounting Software Installation and Deployment
- IT Managed Services
- Contract Tender Bill and Documents Preparation
- Sales and Supply of various Networking devices

### Our plumbing services include:

- Water Supply Systems
- Drainage Systems
- Sanitary Installation

### Wet Services

Our wet services also include:

- Cold water storage tanks & pumps
- Internal hot & cold water supply to buildings
- Drainage reticulation
- Waterless toilets & urinals
- Solar hot water generation
- Heat pump hot water generation
- Irrigation systems
- Borehole pumping systems
- Reverse Osmosis system
- Rainwater harvesting

## FIRE ENGINEERING

**Our fire engineering services also include:**

- Rational Fire Designs
- Automatic Sprinkler Fire Protection
- Gas Fire Extinguisher Installation
- Emergency evacuation communication system
- Fire Pumps and Tanks installations
- Fire Hose reel & Hydrants Reticulation
- Smoke Management Designs
- Building evacuation and escape route analysis
- Firemans telephone systems
- Negotiations with Fire Authorities
- Building Regulation advice and interpretation (National Building Regulations 1996, (LI 1630,2018 Ghana Building Code)
- Plan reviews
- Statutory Signage
- Survey and measurement of Architectural building plans and sites where applicable.
- Gas Suppression Systems Design
- Foam systems design

## FACILITY MANAGEMENT

**Our facilities management services also include:**

- Maintenance planning and management
- Lifecycle costing and management
- Service level agreements
- Expense management
- Contractor management
- Utilities management
- Tenants installations
- Building alterations and refurbishments
- Technical building inspections
- Occupational Health and Safety management
- Building Management Systems (BMS)

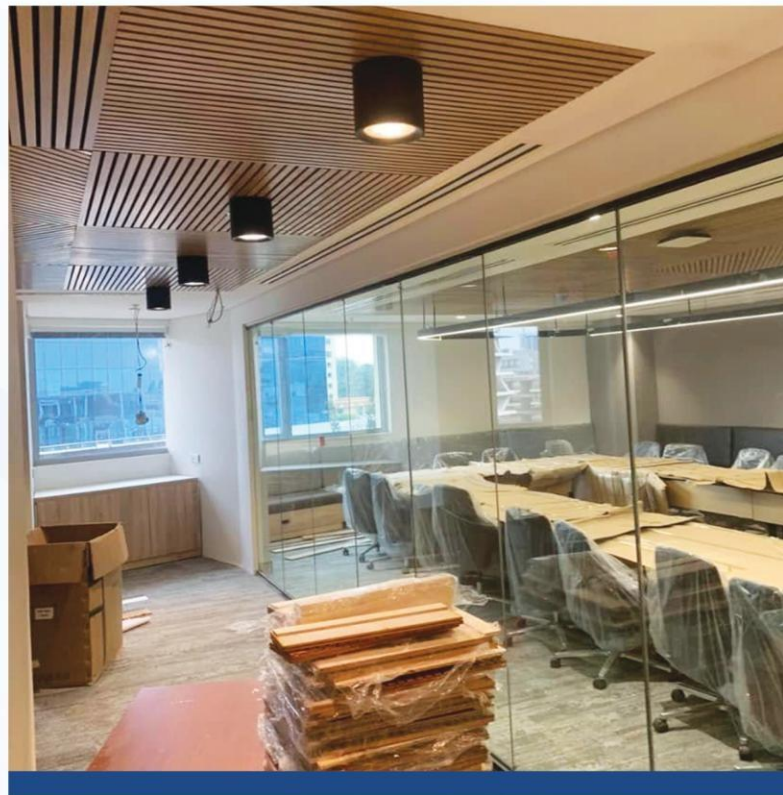

## PROGRAMMING, COSTING AND PROJECT MANAGEMENT

### Our PCPM services also include:

- Development Planning and Initiation Process
- Project Management and Contract Administration
- Developing project briefs
- Structuring project teams
- Management, coordination and preparation of development proposals (Bids)
- Cost benefit analysis
- Project planning and Resource scheduling
- Contract documentation and Administration
- Risk definition and Cost Control management
- Claims assessment, Dispute management adjudication and resolution
- Finalization of Construction Contract Accounts
- Computerized Maintenance Management Software Application

## MEP DESIGN SERVICES

### MEP CAD services include:

- MEP CAD Design Services
- MEP CAD Drafting Services
- MEP BIM Services
- MEP Design and Drafting Services

# PROJECTS OF INTEREST

## FOCUS AREAS

- Housing Estates
- Commercial Office Buildings and Larger Complexes
- Health Centers
- Hotels
- Financial Institutions
- Educational Institutions
- Shopping Malls
- Entertainment Facilities
- Petrol Stations
- Religious Institutions
- Residential Premises

## PROJECTS OF INTEREST

- Electrical Engineering
- Mechanical Engineering
- Plumbing
- Wet Services
- Fire Engineering
- Facilities Management
- Programming, Costing & Project Management
- Security and Surveillance Systems
- Voice/Data Systems
- Audio-Video and home automation

# PROJECTS

## FACEBOOK GHANA

We provided Electrical works, IT networking, Fire Alarm systems, and Public Address installations for the project.

## GOOGLE GHANA

We provided Electrical works, IT networking, Fire Alarm systems, and Public Address installations for the project.

## GOOGLE GHANA

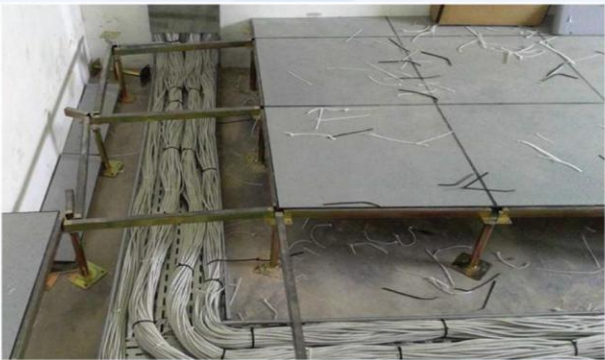

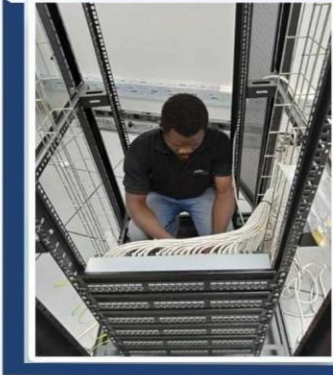

We provided Electrical works, IT networking, Fire Alarm systems, and Public Address installations for the project.

# COSCO GHANA

We provided Electrical works, IT networking, Fire Alarm systems, and Public Address installations for the project.

## KGL GHANA

We provided Electrical works, IT networking, Fire Alarm systems, and Public Address installations for the project.

## MASTERCARD GHANA

We provided Electrical works, IT networking, Fire Alarm systems, and Public Address installations for the project.
